In response to the Office Action dated **March 18, 2003**, please amend the above-identified application as follows:

IN THE CLAIMS:

4. (Twice Amended) An auxiliary module use relaying component consisting of two pairs of electrical contact portions, comprising:

a plurality of busbars connected to a first of said two pairs of electrical contact portions on one end thereof, and a second of said two pairs of electrical contact portions on another end thereof, and

a body portion connecting the first and second pairs of electrical contact portions, the busbars being integrated with synthetic resin,
